

About Us

TSLI is dedicated to assisting individuals and families to live at the highest level of independence possible. By creating a positive environment, collaborative relationships are fostered and staff and residents work together to address skills needed to live more independently.

TSLI is a 501 (c) (3) human services agency which provides housing and support services to mentally ill adults, families and homeless individuals in Suffolk County, New York.

TSLI operates programs to address the needs of the Long Island Community

TSLI Pathways has two components:

- Supervised Living Program - where staff are on-site 24/7
- Apartment Program - where staff are available on-site throughout the day and on-call after hours

Each component is designed to build on an individual's strengths while providing each resident with services developed to promote independence in a safe and nurturing environment.

The **TSLI Pathways Program** provides housing and support services in the community to individuals diagnosed with mental illness. Staff work with the residents on a variety of areas designed to promote skills needed to live more independently such as money management, medication management, community integration and symptom management.

The **TSLI Summit**

Program provides Supported Housing to chronically homeless families and individuals with a diagnosis of mental illness. Residents are visited in their homes at least weekly, and as needed.

The **TSLI Special Employment Program (SEP)** provides supported employment opportunities to individuals with a Serious and Persistent Mental Illness (SPMI). Participants are supplied with support and benefits advocacy to assist them with maintaining employment.
